

Analyzing Your Data

Step 1

Use the Fluency Growth Table to determine the annual growth target.

Fluency Growth Table

Grade	Target
1	55
2	37
3	31
4	21
5	25
6	20

Step 2

Record fluency scores for Theme/Unit 1 and EOY in the appropriate columns.

Step 3

Subtract Theme/Unit 1 scores from the End-of-Year scores for student actual growth (SAG).

Step 4

Put a checkmark next to students who made annual growth (AG).

Step 5

Indicate performance band (PB) for each student (I, S, B, C).

TRY it! Looking at Your Data

From your grade level data, choose one classroom, and follow the steps to complete the table.

Annual Growth Target _____

Classroom Growth Chart

Student	Theme/ Unit 1	EOY	SAG*	AG*	PB** I, S, B, C
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					
11					
12					
13					
14					
15					
16					
17					
18					
19					
20					

Key: *SAG = Student Actual Growth *AG = Annual Growth **PB = Performance Band
